【2023 Epilepsy Care Lecture】 Warmth and Empathy, Just Understand Me
The Health Center handles approximately 8-10 cases of epilepsy every year in emergency situations.
We understand the common concerns and questions that people have, and below are some of the most frequently encountered:

1. How should I face my classmates or colleagues after a seizure?
2. Even though I take medication regularly, why do I still experience seizures?
3. How do I deal with the impact of epilepsy on my learning/work?
4. What resources are available at school to help me?
5. If someone around me has epilepsy, what can I do to help?

If you have any of these questions or want to know more, please sign up. (★This lecture will be using mandarin as main language).

Date: 5/4(Thu) 12:15-13:15
