[Event- Visiting ASE Kaohsiung] April 21st, 2025

We had the incredible opportunity to visit ASE Kaohsiung, a global leader in semiconductor packaging and testing! This visit was not only educational but also truly inspiring for those of us exploring future career paths in tech and engineering ✨

Guided by industry professionals, we gained a deeper understanding of ASE's core values—innovation, sustainability, and excellence—and how these principles drive their leadership in the semiconductor industry 💡🌱☀️ From immersive tours to informative presentations, every moment was packed with valuable insights 📚💻

We also learned about ASE's amazing corporate culture, current job openings, and the kinds of talent they're looking for. It was so exciting to see how what we learn in the classroom connects to real-world applications and future opportunities 🚀🔧

A huge thank you to ASE for the warm welcome and eye-opening experience! We're truly grateful for this unforgettable day!
