

Thank you for supporting NYCU!

Our outstanding international students told us about their stories at NYCU. Feel free to email us your story! There are also campus report, essay sharing, and spotlights to show what NYCU has contributed to the society. At last, feel free to update your information!

Snapshots

SHAMBEL ABATE MARYE

After completing my master's program at the National Taiwan University of Science and Technology (NTUST) in 2021, I embarked on a Ph.D. journey at National Yang-Ming Chiao Tung University (NYCU), driven by my passion for semiconductor technology. As one of Taiwan's premier academic institutions, NYCU is renowned for its cutting-edge research facilities and dynamic academic environment, which strongly influenced my decision to join. Here, I am eager to contribute to the field and deepen my expertise. My current research focuses on developing CVD-grown 2D materials for p-n junction diodes, with particular emphasis on h-BN (hexagonal boron nitride).

Ph.D. International College of Semiconductor Technology
