[Summer Program]

We welcomed students from Gifu Technical High School 🇯🇵 👤 👤 to join an exciting series of activities filled with hands-on learning and discovery!

✨ They joined a creative workshop 🍷🔪, where they experienced handcraft activities and teamwork.

✨ They visited the TSMC Innovation Museum 🏢 to learn about the evolution of semiconductors and Taiwan's innovation journey.

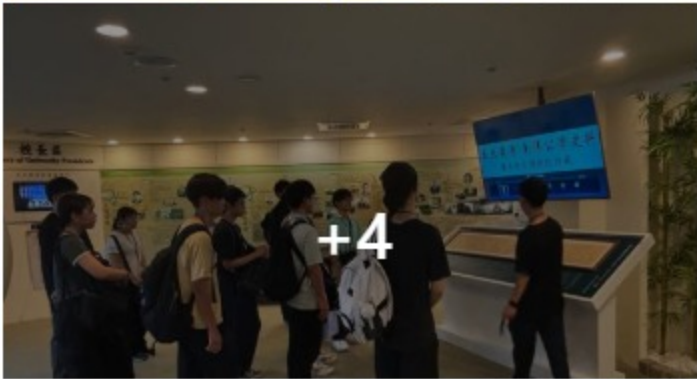

✨ At the Taiwan Space Agency (TASA) 🚀, students explored Taiwan's achievements in satellite development and space technology.

✨ The journey continued with a guided campus tour at NYCU (National Yang Ming Chiao Tung University) 🏫🌳, followed by a special visit to the Nano Facility Center (NFC) 🏭 for a closer look at advanced nanotechnology research.

It was an inspiring program full of science, creativity, and exploration! 🌈💡

🙏 Many thanks to everyone who joined and supported this meaningful experience.
