

Thank you for supporting NYCU!

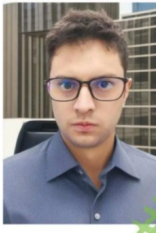

Our outstanding international students told us about their stories at NYCU. Feel free to email us your story! There are also campus report, essay sharing, and spotlights to show what NYCU has contributed to the society. At last, feel free to update your information!

Snapshots

OSCAR JAVIER GOMEZ SANCHEZ

During my time at NYCU, I have delved deeply into the world of theoretical physics, focusing particularly on light-matter interaction systems. My PhD research under Professor Shun-Jen Cheng has centered on the interaction between twisted light and valley excitons in 2D materials. This journey has allowed me to explore complex theoretical concepts and contribute to significant advancements in my field.

At NYCU, I have had the privilege of collaborating with esteemed professors and researchers, which has greatly enriched my academic experience. My time here has been marked by rigorous study, valuable research accomplishments, and the support of a vibrant campus community. The challenging yet rewarding environment at NYCU has not only advanced my knowledge but also honed my problem-solving and critical thinking skills, preparing me for future endeavors.

MASTER, DEPARTMENT OF ELECTRONICS
