Chinese abstract.....	I
English abstract.....	III
Acknowledgements.....	V
Contents.....	VI
List of symbols.....	VIII
Table captions.....	IX
Figure captions.....	X
Chapter I Introduction.....	1
1.1 Introduction to Carbon nanotubes (CNTs).....	1
1.2 Introduction to Anodic Aluminum Oxide (AAO).....	5
1.3 Motivation of This Research.....	8
Chapter II Literture review.....	11
2.1 Structures, properties, and nanofabrications of CNTs.....	11
2.1.1 Structures and properties of CNTs.....	11
2.1.2 Nanofabrication of CNTs.....	16
2.1.3 The process parameters of growth CNTs in ECR-CVD.....	20
2.1.4 Application of CNTs.....	22
2.2 Anodic Aluminum Oxide(AAO).....	29
2.2.1Characteristic of AAO.....	29
2.2.2 Nanofabrication of AAO.....	31
2.2.3 Growth mechanism of Nanoporous alumina.....	32
2.3 Growth of CNT arrays with AAO as template.....	35

Chapter III	Experimental methods.....	40
3.1	Flow Chart.....	40
3.2	AAO Nanofabrication.....	41
3.3	Plasma pretreatment and CNTs deposition by ECR-CVD.....	42
3.4	Analyses.....	44
3.4.1	SEM & TEM.....	44
3.4.2	Raman Spectroscopy.....	44
3.4.3	Auger Electron Spectra (AES)	45
3.4.4	Field Emission Measurement.....	46
Chapter IV	Results and Discussion.....	48
4.1	Integration of CNTs and AAO.....	48
4.1.1	Microstructure of AAO template.....	48
4.1.2	Microstructure of AAO assisted CNTs.....	54
4.1.2	Microstructure of AAO assisted CNTs.....	59
4.1.4	Field Emission Properties.....	60
4.1.5	Summary.....	62
4.2	Tube number density control of CNTs in AAO.....	63
4.2.1	Mechanisms of density control.....	63
4.2.2	Raman Spectrum Analysis.....	70
4.2.3	Field Emission Measurement.....	72
4.2.4	Summary.....	75
Chapter V	Conclusion.....	76
Chapter VI	Prospective.....	78
