Abstract (Chinese).....	I
Abstract (English).....	II
Acknowledgments (Chinese).....	III
Contents.....	IV
Figure Captions.....	VII
Chapter 1. Introduction.....	1
1.1 Preface.....	1
1.2 Literature review of density-controlled carbon nanotubes growth methods with chemical vapor deposition system.....	3
1.2.1 Catalyst controlled with pulse-current electrochemical deposition.....	3
1.2.2 Catalyst controlled by reducing the deposition yield through catalyst interaction with interface diffusion layer.....	3
1.2.3 Catalyst controlled by electron beam lithography technique.....	4
1.3 Review of Field Emission Display Technology.....	4
1.4 Motivation.....	8
Chapter 2. Fundamental theories.....	9
2.1 Theory of field emission.....	9
2.1.1 Field emission from metals.....	9

2.1.2 Field emission from semiconductors.....	12
2.1.3 Fowler-Nordheim equation for a single-cell gated FEA.....	13
2.1.4 Field enhancement and work function effects.....	15
2.2 Growth mechanisms.....	17
2.3 Bias assisted microwave plasma chemical vapor deposition.....	20
Chapter 3 Experimental details.....	22
3.1 Growth of density-controlled carbon nanotubes.....	22
3.1.1 Heat treatment of the deposited thin film substrate with thermal furnace.....	22
3.1.2 Growth of carbon nanotubes by bias assisted microwave plasma chemical vapor deposition.....	24
3.1.3 Bias assisted microwave plasma chemical vapor deposition system.....	24
3.2 Analysis instruments.....	27
3.2.1 Scanning electron microscopy (SEM).....	27
3.2.2 Transmission electron microscopy (TEM).....	28
3.2.3 Raman spectroscopy.....	28
3.3 Field emission measurement.....	31
3.4 Scanning Auger microscope (SAM).....	32
Chapter 4. Results and discussion.....	33
4.1 Results of heat treatment process.....	33

4.1.1 Heat treatment with different temperatures.....	33
4.1.2 Analysis of octopus-like nanostructure.....	33
4.1.3 Heat treatment of dual metal layer with different thickness.....	34
4.1.4 Heat treatment with different cooling rates.....	34
4.2 Discussion to the growth of nanowires.....	35
4.3 Results of the carbon nanotubes growth.....	43
4.3.1 Growth of CNTs from different temperature treated substrate.....	43
4.3.2 Growth of CNTs with different density.....	44
4.4 The explanations to the growth of density reduced CNTs.....	45
4.5 Field emission measurement from different density of CNTs.....	46
Chapter 5. Conclusions.....	58
References.....	59
