

Figure Captions

Chapter 1.

Fig. 1.1 Images of carbon nanotube (CNT) : (a) simulated atomic structure (b) SEM image
 (c) TEM image.....2

Fig. 1.2 SEM images of CNTs with site density of (a) $7.5 \times 10^5 \text{ cm}^{-2}$ (b) $2 \times 10^6 \text{ cm}^{-2}$ (c) $6 \times 10^6 \text{ cm}^{-2}$ (d) $2 \times 10^7 \text{ cm}^{-2}$5

Fig. 1.3 (a) Densely packed of CNTs (b) Sparse packed of CNTs.....6

Fig. 1.4 SEM image of patterned growth CNTs.....6

Fig. 1.5 Schematic diagram of a field emission cell.....7

Fig. 1.6 (a) Comparison between traditional CRT (left) and FED (right), and (b) products of FED.....7

Chapter 2.

Fig. 2.1 Diagram of potential energy of electrons at the surface of a metal.....11

Fig. 2.2 Diagram of the potential energy of electrons at the surface of an n-type semiconductor with field penetration into the semiconductor interior.....11

Fig. 2.3 Schematic diagram of a cell in a FEA. The emitter height is denoted by h the gate aperture diameter by d , and the tip curvature by r12

Fig. 2.4 Emission current density as a function of gate voltage for : (a) the fixed of $\phi = 4 \text{ eV}$ and varying values of β (b) the fixed value of $\beta = 4 \times 10^5 \text{ cm}^{-1}$ and varying values of ϕ 16

Fig. 2.5 Schematic diagram of vapor-solid (VS) growth model.....18

Fig. 2.6 Schematic diagram of VLS growth mechanism for nanotubes.....19

Fig. 2.7 Schematic of SLS growth mechanism.....19

Chapter 3.

Fig. 3.1 Flow chart of heat treatment procedure.....	23
Fig. 3.2 Flow chart of CNTs growth procedure.....	25
Fig. 3.3 Schematic diagram of the bias assisted microwave plasma chemical vapor deposition system.....	26
Fig. 3.4 Schematic diagram of scanning electron microscopy.....	29
Fig. 3.5 Schematic diagram of transmission electron microscopy.....	29
Fig. 3.6 Raman shift of (a) diamond (b) diamond film (c) amorphous carbon (d) graphite.....	30
Fig. 3.7 Schematic diagram of micro-Raman equipment.....	31
Fig. 3.8 Schematic diagram of the instrument for I-V measurement.....	36

Chapter 4.

Fig. 4.1 The SEM images of substrates after different temperature heat treatment.....	36
Fig. 4.2 (a) SEM image of octopus-like nanostructure with low magnitude (b) SEM image with high magnitude (c) SEM EDS analysis of octopus-like nanostructure.....	37
Fig. 4.3 (a) TEM image of octopus-like nanostructure (b) TEM EDS analysis.....	38
Fig. 4.4 Analysis of octopus-like nanostructure with Surface Auger Microscopy.....	39
Fig. 4.5 Heat treatment with different metal layer thickness.....	40
Fig. 4.6 Heat treatment with different cooling rate.....	41
Fig. 4.7 The growth steps of octopus-like nanostructure.....	42
Fig. 4.8 Growth of CNTs from different temperature treated substrate.....	47
Fig. 4.9 Raman shift measurement.....	48
Fig. 4.10 TEM with EDS analysis of the curved carbon nanotubes.....	49

Fig. 4.11 TEM with EDS analysis of the straight carbon nanotubes.....50

Fig. 4.12 Growth of CNTs with different density.....51

Fig. 4.13 The growth steps of density-reduced carbon nanotubes.....52

Fig. 4.14 Emission samples with different density.....53

Fig. 4.15 Cross-section image of the emission samples.....54

Fig. 4.16 Field emission measurement I-V plot.....55

Fig. 4.17 Fowler-Nordheim plot translated from I-V measurement.....56

Fig. 4.18 Plot drawn by enhancement factor versus carbon nanotube density.....57
