Abstract (in Chinese)	i
Abstract (in English)	iii
Acknowledgement	vi
Table of Content	vii
1 Introduction	1
2 Colossal magnetoresistive oxides	5
2.1 Introduction	5
2.2 Double exchange	6
2.3 Crystal field splitting and Jahn-Teller distortion	8
2.4 LaMnO_3 and Lanthanum-deficiency manganites $\text{La}_{1-x}\text{MnO}_3$	11
2.5 Hole doped manganites	14
2.6 Electron doped manganites	17
2.7 Sn-doped manganites	23
2.8 Discussion	25

3 The magneto-transport properties of epitaxial $\text{La}_{0.7}\text{Sn}_{0.3}\text{MnO}_3$ manganite thin films grown on STO	26
3.1 Introduction	27
3.2 The preparation of the target for $\text{La}_{0.7}\text{Sn}_{0.3}\text{MnO}_3$ thin films	28
3.3 The preparation of $\text{La}_{0.7}\text{Sn}_{0.3}\text{MnO}_3$ thin films on SrTiO_3 substrate	28
3.4 The structure characterization	31
3.5 The magnetic properties and electric transport	34
3.6 The electronic structure	39
3.7 Summary	41
4 Magnetotransport properties, electronic structure, and microstructure of $\text{La}_{0.7}\text{Sn}_{0.3}\text{MnO}_3$ thin films grown on LAO	43
4.1 The preparation of $\text{La}_{0.7}\text{Sn}_{0.3}\text{MnO}_3$ thin films on LaAlO_3 substrate	44
4.2 Transport and magnetic behaviors	45
4.3 Electronic structure	51
4.4 Microstructure and constituents distribution analysis	55
4.5 Discussion	69
4.6 Conclusion	72
5 Phase diagram and magnetic properties of $\text{La}_{1-x}\text{Sn}_x\text{MnO}_3$ manganites	73
5.1 Motivation	74

5.2 The preparation of $\text{La}_{1-x}\text{Sn}_x\text{MnO}_3$ thin films on LaAlO_3 substrates	75
5.3 The structure characterization	76
5.4 The magnetic properties	78
5.5 The solubility of Sn in the LaMnO_3 perovskite	81
5.6 Electronic structure of $\text{La}_{1-x}\text{Sn}_x\text{MnO}_3$ ($x=0.1-0.4$)	88
5.7 Phase diagram	96
5.4 Summary	101
6 Summary	102
References	105
Biographical notes	114
