

Table Lists

Chapter 1

Table 1-1 Comparison between vacuum microelectronics and solid-state electronics.

Chapter 2

Table 2-1 Physical properties of some common catalysts

Chapter 3

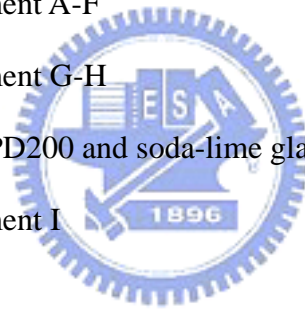

Table 3-1 Catalyst for CNTs growth

Table 3-2 Process of Experiment A-F

Table 3-3 Process of Experiment G-H

Table 3-4 Characteristics of PD200 and soda-lime glass

Table 3-5 Process of Experiment I

Chapter 4

Table 4-1 Turn-on field (V/ μm) of CNT emitters

Table 4-2 Current density (mA/cm^2) of CNT emitters at 6V/ μm (Experiment A, B, D, E, F) and 3.75 V/ μm (Experiment I)
