

應用在無線通訊之低雜訊磷化銦鎵/砷化銦鎵假晶式高電子遷  
移率電晶體的高線性度之研究發展

Development of Low Noise InGaP/InGaAs PHEMTs with High  
Linearity for Wireless Communication Applications

研究生:張信源

Student: Xin-Yuan Chang

指導教授:張翼博士

Advisor: Dr. Edward Y. Chang

A Thesis

Submitted to Department of Materials Science and Engineering

College of Engineering

National Chiao Tung University

in partial Fulfillment of Master of the Requirements

for the Degree of Master of Science  
in Materials Science and Engineering

August 2005

Hsinchu, Taiwan, Republic of China

中華民國九十四年八月
