

List of Tables

Tab. 4.1 Simulation parameters of the proposed sub-wavelength grating	39
Tab. 4.2 Simulation parameters for determining period of metallic layer	41
Tab. 4.3 Simulation parameters for tolerance analysis	46
Tab. 5.1 Comparison of PDMS conversion with vacuum	53
Tab. 5.2 Evaporation results with different title angle θ	60
Tab. 5.3 Comparison between E-beam lithography and nanoimprint lithography	63
