

Table Contents

Table 1 Complete photonic band gap widths in unit $\omega a/2\pi c$ for a photonic crystal with various refractive indices..... **93**

Table 2 Complete photonic band gaps width, in unit of $\omega a/2\pi c$, of photonic crystals with constant refractive indices ($n_e = 6.2, n_o = 4.8$) and various $L1$ and $L2$ lengths in unit of the lattice constant..... **94**
